

 PUERTO VALLARTA

How To Get Your COVID-19 Test in Puerto Vallarta

As of January 26, all passengers on international flights bound for the United States, including those who have received the COVID-19 vaccine, will be required by the Centers for Disease Control to show proof of a negative COVID-19 test (PCR or rapid antigen) or written documentation of recovery following a COVID-19 infection prior to boarding. This follows similar regulations issued by the Canadian government requiring a negative COVID-19 test (PCR or LAMP) for all inbound international passengers as of January 7, 2021. Tests for entry into both countries must be conducted no more than 72 hours prior to departure.

To facilitate this process, Puerto Vallarta Tourism is offering North American passengers COVID-19 tests at affordable prices in convenient locations across the destination including, medical facilities and select hotels. It is recommended to schedule a COVID-19 test as far in advance as possible by contacting one of the providers listed in this document. Any additional requirements, costs, and the current status of same day results should also be confirmed directly with the testing provider.

Travelers who test positive for COVID-19 but exhibit no major symptoms will be required to undergo a mandatory 14-day quarantine which can be completed in their hotel on a designated floor (if available) or room. Each hotel applies different policies for mandatory quarantines, with some offering steeply discounted rates or even complimentary. Specifics should be confirmed with individual hotels directly.

More information and a real-time list of all testing options in Puerto Vallarta can be accessed at visitpuertovallarta.com/COVID-19.
