

COVID19 TESTING

Puerto Vallarta International Airport.

For passengers bound for the USA.

According to the Center for Disease Control and Prevention (CDC) order that takes effect on Tuesday, January 26, every passenger bound for the United States of America, must perform a COVID-19 PCR or Antigen screening test, within the 72 hours prior to boarding your flight to the United States and carry the results electronically or on paper to be presented to the airline prior to travel.

For this reason GAP facilitates the installation of the Polanco medical laboratory on a temporary basis as one more option for passengers that travel to our destination.

- GAP recommends arriving with enough time to take your flight and previously perform, if possible, the documentation and requirements to fly. If the passenger wishes to be tested at the airport, at least an additional hour must be added to their travel itinerary from the airline's recommended time.
- In addition, **GAP suggests that passengers check with their airline for government requests and to learn about possible changes to their flight itinerary.**

Aeropuerto
Internacional
de Puerto Vallarta

We are a laboratory oriented to provide support services for medical diagnosis of the highest quality.

FREQUENTLY ASKED QUESTIONS

- **Hours of operation:**

24/7 service, every day of the week, ongoing and uninterrupted hours, **will start operating on this schedule starting January 29 at 16:00 hrs.**

- **To schedule an appointment or request information, what will be the first means of contact?**

In physical form at the laboratory's opening, supported by material on pop up banners.

For the time being at the passenger service module only for general information, service phone numbers:

- ✓ (322) 2211298 ext.35100

- ✓ (322) 2211537 ext.35100

- ✓ (322) 2090047 ext.35100

- **How are the results delivered physically, digitally or both?**

At the opening they will be sent by e-mail or printed in site.

- **Special indications for before performing the test. Special fasting, not blowing your nose, not brushing your teeth... any aspect to consider that should be communicated to the user?**

Just to not have used any nasal ointments.

- **Any user with international travel can take the study even if it is not to a direct destination from this airport, meaning; our airport is the stopover, if the answer is yes, will the charge be with the costs of an international traveler or as a general public?**

In this case, the agreement is that the passenger must submit his/her travel itinerary showing a destination abroad to access the international traveler price.

- **What are the payment options? Is it paid in person (on-the-spot payment) or can it be done online?**

The payment is in person (on-the-spot payment). Cash, US dollars or Mexican pesos, VISA, MasterCard and American Express.

- **What documents must the passenger present for the test?**

You identify yourself with your passport, in order to validate the data and confirm that they match, to prove that it is for an international passenger must show your flight or reservation to get the said cost, otherwise it will apply as others.

- **From what age is it required to present the PCR or antigen test to travel to the United States of America?**

2 years and older.
